

If the rule is in BLACK text, then it is the same as 2018.

If the rule is in BLUE text, then it has been changed for 2019.

If any future revisions are made it will be in RED text.

CROSSOVER CLASSES

Class Designation: WvT

General Safety: All vehicles must conform with general IHRA safety rules.

Beam Tripper: A front beam tripper is permitted but can only extend 45" forward of the centerline of the front wheel.

Engine Coolant: Only water is permitted in the coolant system. Antifreeze or other additives are prohibited.

Hybrids: Import engines in Domestic bodies or Domestic engines in Import bodies are prohibited. All cars must be either Import bodied/powerd or Domestic bodied/powerd.

Crossover Rules: The crossover classes below run under their own set of class rules for their sanctioning body and ignore the WCF rulebook totally. Every crossover car is 100% accountable for every rule in their rulebook, unless there is as an adjustment made in the table below. In some cases, a crossover class may need an adjustment to be slowed down or sped up to make parity with the WCF class.

Eligibility: Only cars that have ran two races or more with the Warriors Outlaw class in 2019 or approved by Larry Mack (if they have ran less than 2 races) can claim these rules. If there is any debate or question on the spirit of crossover eligibility, the event director/tech director will make the final decision on which rulebook the car must run under.

Engine Containment Device: Engine diaper or catch pan device to capture oil and/or debris in the event of engine failure mandatory. If a catch pan device is used, catch pan must employ minimum 2-inch-high lips on all sides. Lips must be covered or curved inward, so as to contain oil in pan. Catch pan must cover entire area below the engine. Catch pan must extend from radiator support to firewall and from frame rail to frame rail. In all cases, lips must be adequate enough to contain oil in the catch pan. Should a competitor spill excessive oil from the catch pan and debris onto the track, he or she may be disqualified from further competition at the sole and absolute discretion of the event director.

Series	Class Name	Parity Adjustments
Warriors Outlaw	Warriors Outlaw	<ul style="list-style-type: none"> • Small Block Turbo: No weight adjustment • Small Block Centrifugal Blower: No weight adjustment • Small Block Roots Blower: No weight adjustment • Small Block Nitrous: No weight adjustment • Big Block Turbo: 3650 lbs. • Big Block Centrifugal Blower: 3650 lbs. • Big Block Roots Blower: No weight adjustment • Big Block Nitrous: No weight adjustment • Buick/Olds/Pontiac: No weight adjustment
